SAFE HAVEN ENTERPRISES

Providing maximum protection worldwide
SAFE HAVEN ENTERPRISES IS A RECOGNIZED MANUFACTURER OF PROTECTIVE BUILDING AND SECURITY SYSTEMS.

- CLASS A LOUISIANA LICENSED GENERAL CONTRACTOR
- SBA CERTIFIED WOMAN OWNED SMALL BUSINESS (WOSB)
- SBA CERTIFIED ECONOMICALLY DEPRESSED HUBZONE
- WBENC CERTIFIED WOMEN’S BUSINESS ENTERPRISE
- US DEPARTMENT OF STATE D/S CERTIFIED BUILDINGS, DOORS, WINDOWS, & LOUVERS
- ENGINEERED TO MEET AND EXCEED AMERICAN PETROLEUM INSTITUTE (API) RP 752/753 PETROCHEMICAL BUILDING COMPLIANCE
- CSA A-660 CERTIFIED
- CWB CERTIFIED WELDERS
- CERTIFIED GENERATOR SETS
- EMBASSY ENVIRONMENTAL SYSTEMS UPGRADES
- US COAST GUARD, ABS APPROVED AND DNV CERTIFIED FOR OFFSHORE APPLICATION
- CLEARED PERSONNEL
- TURN-KEY RAPID DEPLOYMENT
- QUALITY PROTECTION
- MULTIPLE PHYSICAL SECURITY OPTIONS

“The project at the Petrotrin facility for the WASA plant in the Republic of Trinidad and Tobago...was timely and the installation of the building was successfully completed. The Blast Resistant building purchased from Safe Haven Enterprises is superbly constructed and exceeds our expectation.”

- Seven Seas Water Corporation
  Tampa, FL
Safe Haven Enterprises has built a reputation for knowledge, industry experience, quality, reliability and customer service for over 15 years. Founded in November 1998 to provide an unprecedented level of protection for people and property in all sectors of government, business and community, Safe Haven Enterprises continues to lead the way in the fabrication of protective building systems.

The need for safety and security has reached heightened levels worldwide. We are a complete, rapid deployment turn-key manufacturer providing fire and blast resistant, forced entry(ballistic resistant (FE/BR) and hardened products for any application where protection is required for personnel or equipment.

Safe Haven Enterprises is committed to the research and development of infrastructures.

- In-house engineering/ACAD Department
- Blast Engineering
- Interior Design
- Foundation Engineering
- Manufacturing of Buildings
- On-site Project Management
- Transportation of Buildings
- Site Preparation
- Installation of Buildings
- Maintenance of Buildings

“When disaster occurs – be it man-made or natural – one realizes their vulnerability and wishes more had been done to protect personnel and property. Safe Haven Enterprises, LLC works with U.S. Government entities, corporations and private citizens to strategically plan how best to provide protection before disaster strikes. Safe Haven provides turn-key solutions, including custom fabricated, blast resistant, forced-entry/ ballistic resistant buildings –true “Safe Havens.”

Alta Baker, President/CEO
Who We Are

The systems and networks that make up the infrastructure of society are often taken for granted, yet a disruption to just one of those systems can have dire consequences across other sectors.

Safe Haven Enterprises is the leading manufacturer of mission critical protective building systems worldwide. Our extensive and ever-changing product line can be found in thousands of high level security buildings and provide front line safety and security across the United States, Australia, Israel and the Middle East, Europe, Africa, Asia, Far East, Russia and across world-wide bodies of water.

Our team of highly skilled, security-sensitive professionals are at the helm of a global research and development program and are specifically trained in complete project development from concept, design and inception through installation, testing and maintenance by cleared journeymen.
Safe Haven Enterprises continues to critically identify those industries requiring heightened security and safety, in order to provide protection for our future.

▶ Government
▶ Petrochemical
▶ Offshore and Marine
▶ Life Sciences
▶ Broadcast Media
▶ Commercial
▶ Mission Critical Operations
▶ Community & Residential

We play a critical, global role by providing:

- Preservation of natural resources and energies;
- Debris, fire and blast resistance for petrochemical facilities worldwide;
- The shielding of offshore and marine facilities;
- High security for business;
- Fire and blast resistant command centers and government agencies;
- Protection of our military;
- The safety of communities and our children.
Safe Haven Enterprises offers an extensive line of doors, windows, gates, mobile units, secure rooms, protected areas and panic rooms. We offer products and units in custom sizes with design and functionality to meet the very specific needs of any client.

We are the provider of “safe havens” for governments in the United States and abroad, corporations and private citizens who require top level security and safety infrastructure solutions. Our ever-expanding product line is designed to keep ahead of the growing need for building structures that will protect the human race against explosions, ballistics, chemical releases, fire, forced entry, earthquakes, hurricanes, tornadoes and other acts of God, terrorism, and other mission critical needs that arise today or in the future.

“Safe Havens” are delivered fully-equipped, operational and ready for immediate hook-up, with standard:

- Insulation
- HVAC
- Fluorescent Lighting
- Furniture and Accessories
- Electrical
- Telecommunications
- Wall Coverings
- Flooring

Ten workers stayed behind at the Williams Olefins chemical plant after an explosion today to keep flaring operations running and shut down the plant, according to Louisiana Governor Bobby Jindal.

He said during an afternoon briefing the workers were in a safe room (Safe Haven Control Room) as part of the plant’s emergency protocols.

Blast Resistant Modules (BRM)

- **FIRE AND BLAST RESISTANT PORTABLE UNITS AND PERMANENT FACILITIES**
- **WITH OR WITHOUT POSITIVE PRESSURIZATION**
- **MINIMUM 8PSI INITIAL BLAST PROTECTION**
- **MEET OR EXCEEDS AMERICAN PETROLEUM INSTITUTE (API) 752/753 BUILDING CODES**

**ENGINEER YOUR BLAST RESISTANT MODULE TO YOUR SPECIFICATIONS**

- Crimped ¼-inch plate steel walls and ½-inch flat plate roof provide maximum strength and durability
- Initial blast rating of 8 PSI side-on pressure, for a duration of 200 milliseconds
- Continuous welded construction
- Units built for comfort, durability, and safety
- Two certified blast resistant doors (50 PSI) with certified hardware
- Fully insulated building (R-20) with one-hour fire rating
- Crimped steel plate walls or flat plate walls
- Fire and Smoke Detection
- Exterior service entrance disconnect 200 amp connection lugs in NEMA 3R enclosure
- Bard Class I, Div II HVAC system (40' BRM: 2-ton HVAC, 60' BRM: 3-ton HVAC)
- Baker risk approved - backed by stamped engineered drawings
- Rough-in conduit for data/voice
- One-hour fire rating
- Custom sizes and lavatories available
Modular Buildings & Portable Units

FORCED ENTRY/ BALLISTIC RESISTANT (FE/BR)

- Custom fabricated FE/BR modular buildings & portable units
- Units designed to withstand harsh environmental conditions
- Units provide a safe refuge for protection of personnel and equipment in any application
- Safe Haven meets U.S. Department of State certification criteria for Forced Entry / Ballistic Resistant (FE/BR)
- Units come in variety of floor plans designed to maximize utilization of space (stackable and/or interconnecting)
- Doors, entryways, stairways, and interior hallways can be strategically located for safety and convenience to specific usage

On September 10, 2001 actual blast testing was conducted on Safe Haven’s modular stand-alone unit. In accordance with U.S. Department of State standards, Safe Haven’s modular unit maintained structural integrity.

“...my construction manager was so impressed with the unit he said if there was another explosion and fire he wanted to be in your Safe Haven.”

- Procurement Manager
Eastman Chemical Company, TN
CERTIFIED FORCED ENTRY AND BALLISTIC RESISTANT DOORS, LOUVERS & GATES

- Blast Cell Chambers. 8psi minimal initial blast protection to 236psi initial blast with greater protection upon request
- 60 minutes forced entry
- Ballistic UL 752- level 8
- Fire rated
- US Department of State Diplomatic/Security Certified
- Engineered blast resistant doors for any application designed to fit and easy to install
- Forced Entry / Ballistic Resistant Doors for any protection requirement

“...The Type 111 doors were of a special forced entry/ballistic resistance designed for unique height and width requirement....we had no issues with installation due to the guidance and support that Safe Haven provided.”
